To better serve our grantees and add efficiency to internal operations, McKnight Foundation uses an online submission process for initial inquiries, grant proposals, and reports. The online application system is designed to use everyone's time and resources as efficiently as possible, cutting down on paper and mailing expenses on both ends.

The application process is described in 2(b) below. If an applicant has questions at any time during the online application process described below, the applicant can send an email to apply@mcknight.org or contact the Foundation at:

McKnight Foundation

Sample questions to consider before applying:

- What are your organization's primary goals, projects, or services?

2. (d) Restrictions or Limitations:

Excluded Activities

- Biomedical research outside established Foundation programs
- Basic research in academic disciplines
- Ticket sales, fund raising dinners, festivals, celebrations, and similar activities
- Attendance at or travel to conferences or for costs of conference speakers, programs, or activities (except for conferences directly related to the Foundation's grantmaking initiatives)
- Travel, except as travel is related to other McKnight support of an organization

Geographic Focus

The Foundation's primary geographic focus is the state of Minnesota. Generally, Arts & Culture, and Vibrant & Equitable Communities grants are made only within the state. Most of the Foundation's grantmaking in support of human services in greater Minnesota is accomplished through re-granting of Foundation funds by the six Minnesota Initiative Funds, which were established by the Foundation in 1986. Special programs initiated by the Foundation may have different geographic limitations.

Types of Organizations the Foundation Supports

Eligible applicants must be classified by the Internal Revenue Service as tax-exempt, charitable organizations that are not private foundations. Except in unusual circumstances, proposals from domestic organizations will be considered only when the organizations have received a favorable determination letter from the Internal Revenue Service regarding their tax-exempt status. We only fund fiscal agents or sponsors as necessary.

Units of government are eligible to apply for funding for special projects that complement customary public functions.

Churches and religious organizations may apply for support for activities that benefit the larger community, but not for those having a sectarian religious purpose.

Grants are not made directly to individuals except to the recipient of the Distinguished Artist Award. This annual award is based upon nominations, and individuals may not apply for them.

Priorities

Requests that fall within the Foundation's current priorities are more likely to be considered than are others. Topics outside the current priorities are of much less interest to the Foundation.

Currently, areas of low priority include: chemical dependency treatment; the needs of the elderly and long-term care; and the needs of people with disabilities. These topics have received considerable Foundation funding in the past and may be assigned a higher priority in the future. For the present, however, the only funding requests considered in these low priority areas are special projects likely to have a broad impact on the affected population, such as the development of a model program or a new policy initiative. Also, it must be demonstrated that Foundation support is required for leverage of other specifically identified resources. Operating and capital support are not available in low priority areas.

Each of the Foundation's program areas has specific goals, eligibility requirements, and application procedures. Detailed descriptions are available on the Foundation's website.

The Foundation's international grantmaking is limited to projects that increase food security in developing countries.

Except in highly unusual circumstances, the Foundation's international grantmaking is directed towards development projects rather than emergency relief efforts.

The Foundation administers the McKnight Endowment Fund for Neuroscience, McKnight's oldest research program. This program dates to 1977 and is a direct legacy of founder William L. McKnight, who was interested in the biology of the brain, particularly diseases affecting memory. The research program is overseen by the McKnight Endowment Fund for Neuroscience, an independent organization established for this purpose and funded exclusively by the McKnight Foundation. The Endowment Fund has its own board of directors.

The Endowment Fund awards three types of research grants on the basis of recommendations by review committees. Additionally, the Endowment Fund holds an annual conference for current and past awardees to present scientific findings. More information is available on the Foundation's website: www.mcknight.org/neuroscience/. The awards are:

- McKnight Technological Innovations in Neuroscience Awards: support scientists who work on novel and creative approaches to understanding brain function. Up to three awards of \$200,000 over two years are made annually. Letters of intent are due in early December.
- McKnight Scholar Awards: encourage neuroscientists in the early stages of their careers to focus on disorders of learning and memory. Up to six awards of \$225,000 over three years are made annually. Applications are due in early January.
- McKnight Neurobiology of Brain Disorders Awards: encourage research aimed at translating laboratory discoveries about the brain and nervous system into diagnoses and therapies to improve human health, solving the problems of neurological and psychiatric diseases. Up to four awards of \$300,000 over three years are made annually. Letters of intent are due in early March.
