ENVIRONMENTAL STATEMENT

The McKnight Foundation is committed to the protection of our environment, a philosophy that underlies our practice of using paper with postconsumer waste content, and where possible, environmentally friendly inks. This book was printed on paper containing 100% post-consumer fibers using soy inks. Wind energy credits were purchased for its production. Additionally, we partner with printers and use papers that are Forest Stewardship Council (FSC) certified. The FSC standards represent the world's strongest social and environmental systems for guiding forest management and the use of paper resources toward sustainable outcomes.
